PROFESSIONAL SUMMARY

Full-stack software developer with hands-on experience in Java, Spring Boot, ReactJS, and MySQL. Skilled in REST API development, API integration, debugging, and Agile/Scrum workflows. Strong foundation in Object-Oriented Programming (OOP), data structures, and algorithms. Seeking a Software Engineer role to build scalable, user-focused applications.

SKILLS SUMMARY

- Languages:** C, Java, Python, SQL
- Frontend:** HTML5, CSS3, JavaScript (ES6+), ReactJS, React Native
- Backend & Frameworks:** Node.js, Express.js, REST APIs, Python (Flask, FastAPI), Java, Spring Boot, JDBC
- AI/ML & NLP:** BERT, Gemini API, Groq AI, Machine Learning Models
- Databases:** MongoDB, MySQL, SQL
- Tools/Platforms:** Git, GitHub, Postman, Tableau, R

EDUCATION

- Francis Xavier Engineering College** Tirunelveli, Tamil Nadu
B.Tech - Computer Science and Business Systems; CGPA: 8.04
Focus Areas: Full-Stack Development, REST APIs, OOP, Data Structures, Algorithms
2023 - 2027
- Rose Mary Matric Higher Secondary School** Tirunelveli, Tamil Nadu
Higher Secondary Certificate; Percentage: 80%
2021 - 2023

EXPERIENCE

- Asta Systech** Onsite
MERN Stack Developer
June 2025 - August 2025
 - MERN Stack Development:** Developed and deployed full-stack web applications using React.js, Node.js, Express.js, and MongoDB; built responsive frontends with React.js and optimized backend APIs for performance.
 - React Native Mobile Development:** Developed cross-platform mobile applications using React Native; implemented reusable components, state management, and integrated APIs for seamless user experience.
 - REST API Design & Integration:** Designed and built secure REST APIs using Express.js; integrated third-party APIs and handled data persistence with MongoDB; resolved 15+ bugs ensuring robust application reliability.
- Codebind Technologies** Remote
In-Plant Trainee - AI/ML & Data Processing
December 2023 - January 2024
 - Machine Learning Implementation:** Implemented supervised ML classification models in Python (scikit-learn); built data processing pipelines with proper validation and error handling.
 - Algorithm Application:** Applied AI/ML algorithms (linear regression, decision trees, k-NN) on real-world datasets; presented data insights to 10-member cohort.

PROJECTS

- TenderGuard – AI-Powered Tender Fraud Detection System:** Developed a full-stack web application using React.js frontend and Python (FastAPI) backend to analyze public tender documents and identify potential fraud and procurement risks using AI. Built RESTful APIs and integrated BERT-based NLP models to classify tender content and detect suspicious patterns; leveraged Gemini API for intelligent explanations of fraud risks. Designed responsive React dashboard with secure authentication and MySQL database for efficient document processing and risk visualization.
Tech: React.js, Python (Flask/FastAPI), BERT, Gemini API, MySQL, REST API (Ongoing 2026)
- AI Code Reviewer:** Built a full-stack AI-powered code review application using MERN stack (React.js, Node.js, Express.js, MongoDB) that automatically reviews GitHub Pull Requests in real time with Groq AI (Llama 3.3). Integrated GitHub Webhooks and Octokit API to fetch Pull Request changes and trigger automated code analysis for bugs, security risks, and performance optimization. Developed secure REST APIs and interactive React dashboard with Tailwind CSS for repository metrics and code quality insights.
Tech: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, GitHub API, Groq AI (Llama 3.3) (2026)
- HR Management Analysis:** Analyzed 1,400+ employee records in R; identified top 3 attrition drivers and delivered visual reports to support HR decision-making.
Tech: R, ggplot2, dplyr, Statistical Analysis (2025)

CERTIFICATIONS

- NPTEL - Introduction to Internet of Things (2025)
- NPTEL - Cloud Computing (2025)
- Udemy - Java Scratch Fundamentals (2023)

LANGUAGES

- English, Tamil
